

## **ASX ANNOUNCEMENT**

### **Xplore Wrap launches as first major product initiative post Company rebrand**

Sydney, Monday 1 July 2019

**Xplore Wealth Limited** (Xplore Wealth) ASX:XPL announces the launch of a new wrap platform solution for discretionary investments, superannuation and pension monies.

Launched on Friday June 28, the wrap delivers enhanced functionality and investment market access to advisers operating across a broad range of business model, client type and super/ non super client needs.

Called Xplore Wrap, the wrap platform is the first to be launched under the recently rebranded Xplore Wealth. Promising a ‘world of investments’ Xplore Wrap offers true multi-currency and multi-market investment access and trading through your broker of choice, among a number of other key benefits for investment, superannuation and pension investors.

Commenting on the product launch, Xplore Wealth Non- Executive Chairman Peter Brook said: “Xplore Wrap was developed partly to help transform client and adviser relationships. It offers advisers a genuine range of investment solutions to meet a choice of client need”.

“For example, advisers can provide clients with the advanced benefit of a consolidated view of investments, access to managed funds, international securities and portfolio rebalancing under a single instruction,” Mr Brook said.

Xplore Wrap delivers access to a range of managed funds, ASX listed equities, international securities on 28 exchanges and a range of cash investment products. It is managed via a single ecosystem with streamlined reporting and can support both adviser and investor-led investment decisions.

“The Xplore Group is delighted to be introducing this new wrap solution, which complements the existing managed discretionary account (MDA) capabilities. It helps to support an evolving market landscape and the more sophisticated client investment need prevalent today,” said Mr Brook.

“Increased transparency in the investment decision-making process, combined with Xplore’s deep industry expertise and administrative track record has enabled us to deliver the first of several planned new products offering a simplified and clear approach that efficiently supports our loyal advisers and their clients.”
